Node.js | Next.js | TypeScript

PROJECTS

● TimeKeeper— *Used Watch Resale Market*

This website is designed to resell used watches. Here you can signup yourself as a user or buyer. When you are a buyer, you can take all the benefits of a buyer from here.

For example, You can choose the category and buy the product. You can book your favorite product if you want. And no one else can buy the product you booked. You can then see all the products you have booked on the MY ORDER page. And you can pay easily with a card. And if you don't like any product, you can report it if you want, this product will go to the admin, and he can delete it if he wants.
